

# CAREER INTERVIEW - 江慧賢學姐

## THE OPPORTUNITY TO WORK IN TECHNOLOGY INDUSTRY

Preferably to work in an office rather than in the service line. Therefore, I found my current job through a job hunting website.

## HOW TO MAKE A RESUME

According to the requirements of the job posting, describe your own qualifications, capabilities, and prior experience. You should also underline your own advantages and make every effort to have both Chinese and English versions ready.

## HOW TO PREPARE FOR AN INTERVIEW

Be sure to prepare for the interview in both Chinese and English. You can also refer to the "面試趣" website, which has detailed relevant experience and questions to share.

## WHAT YOU CAN PREPARE NOW

- Master the basic skills of Excel during college
- Learn how the upper, middle, and lower reaches of the technology industry's supply chain operate at first in order to determine the way you want to head in the future.
- Regarding product knowledge, you will only get to learn it after working

## HOW TO ENRICH YOURSELF

Pay attention to how senior colleagues interact and resolve problems. You can also ask them questions about what you don't understand and ask for their help.

## ADVICES FOR JUNIORS

If you want to work in the technology industry during college, you must choose a large company carefully. English proficiency does not have to be at the top mark, as long as you can communicate with customers. To work in the technology industry, you must have a strong heart and just don't simply feel self-conscious all the time.
