

應外系 93級校友 徐詠筑

語言學習很重要，重點是語言學習也可以很好玩。認識一種新的語言就是認識一種新的文化，你學習到的不只是知識，是一種新的世界觀價值觀。如果你願意開放心胸，語言學習可以成為一種讓你熱血沸騰的興趣。在學校的各種科目，一定有自己擅長與不擅長，重要的是珍惜並善用每個學習機會，對於各種可能性都抱持著開放的心，不劃地自限。只要用認真盡力的態度面對每一項任務，你就可以得到該有的經驗值，成功很好，失敗也沒關係，就算人生也就是這樣邊學邊走，認識自己，找尋最適合自己的道路。

“ Language learning is very important; the key is that language learning can also be fun. Learning a new language is also to know a new culture. What you learn is not just knowledge, but new worldviews and values. If you are willing to be open-minded, language learning can become a passion for you. Among various subjects of the school, there must be some that you are good at and others that you are not. Try to cherish and make good use of every learning opportunity, to be open to all possibilities, and not to limit yourself. As long as you face each task with a serious and hard-working attitude, you can get the experience. Success is very good, but it doesn't matter if you fail. Even if life is like this, learn while walking, know yourself, and find the path that suits you the best. ”
