

應外系大學部 88級校友 陳力綺

大學四年專心於課業，享受著單純學習的樂趣。我一直深信，不管是上哪個老師的課，不管這個老師你/妳喜歡或不喜歡，只要你/妳願意花時間坐在教室去聆聽他/她說話，就一定可以從他/她身上獲得一些知識跟經驗。真正從事教學研究工作後，因為常常得從自己身上擷取養分澆灌給學生，我更懷念學生時代那純粹吸收知識養分的時光。每個階段都有每個階段該做的事，我很慶幸我在學生時代盡到當學生的義務，而現在也維持這種態度，認真地過好每一天。

“ Concentrate on schoolwork for four years in university, enjoying the joy of pure learning. I always believe that no matter which teacher’s class, whether you like the teacher or not, if you spend time sitting in the classroom and listening to the class, you will learn some knowledge and experiences. After really engaging in teaching and research work, I often have to extract nutrients from myself and pour them to students. I miss the time of purely absorbing knowledge and nutrients in my student life. In each stage you have certain missions. I’m glad that I fulfilled my obligations as a student when I was a student and now I maintain this attitude and lead a serious life every day.”
