「每個人的生命都是一條河流，而我們的夢想就像那片大海，想要完成夢想的唯一辦法，就是往下流。我們在往下流的過程可能有些人會發現自己的河道特別蜿蜒曲折，有些人發現自己流到一半沉到河底變成淤泥，又或者流進了一個堰塞湖，這個時候不要放棄，因為我們想完成夢想的動機就像那個水流，如果我們的動機夠強烈，那個水流就會衝破堰塞湖，就會帶起河底的淤泥，只要不斷往下流，終究有一天會流到屬於我們的海洋。」

“ Everyone’s life is a river, and our dream is the ocean. The only way to our dream is to flow downward. In the process of our downward flow, some people may find that their river course is particularly winding and winding, and some people find that they sink halfway to the bottom of the river and become silt, or flow into a lake. Don’t give up at that time, because we want the motivation for fulfilling our dream, like that current. If our motivation is strong enough, the current will break through the lake and bring up the silt at the bottom of the river. As long as it continues to flow down, it will eventually flow to our ocean.”
